BUSINESS FOCUS MAGAZINE FEATURES SPRINT OIL AND GAS SERVICES AMONG LEADING OIL AND GAS COMPANIES IN THE MIDDLE EAST

In a major accomplishment for Sprint Oil and Gas Services, the company has been featured in the latest issue of Business Focus Magazine (Issue 133), a renowned publication by CEO Media Group. This prestigious magazine showcases industry leaders from various sectors across the globe, and Sprint has been honored to represent the Oil and Gas industry in the Middle East.

This special edition highlights 33 distinguished companies, each excelling in their respective fields, with Sprint being the sole representative from the Oil and Gas sector in the region. The recognition is a testament to the company's rapid growth and commitment to excellence in a highly competitive industry.

In an exclusive interview with Business Focus, Sprint's Chief Operating Officer (COO), Mr. Hossam Elmoneim, shared insights into the company's journey.

He emphasized how Sprint is thriving through innovative approaches and a dynamic workforce dedicated to delivering cost-efficient solutions for its clients. Mr. Hossam further highlighted that since its inception in 2004, Sprint has remained steadfast in its mission to provide reliable products and services, quickly establishing itself as a trusted partner in the oil and gas sector.

This feature in Business Focus marks a significant milestone for Sprint. It's not just an acknowledgment of Sprint's achievements, but also a clear indication that we are making an impact in the Middle East's oil and gas industry.

The article's success was made possible thanks to the collaborative efforts of Mr. Tyler from Business Focus and Ms. Jen from Sprint, whose combined efforts ensured the seamless execution of this project.

Sprint Oil and Gas Services continues to build on its reputation as a forward-thinking leader in the oil and gas industry, with its sights set on further innovation and sustainable growth in the years to come.

SPRINT NEWS

Sprint Showcased Excellence at GOTECH 2025, Dubai

SPRINT marked a strong presence at GOTECH 2025, actively contributing to both the exhibition and technical program. The event served as a strategic platform to engage with key stakeholders, showcase our capabilities, and reinforce our role in driving innovation within the well services domain.

Our team co-chaired over seven technical sessions throughout the conference, reflecting our commitment to advancing industry dialogue and technical exchange. In parallel, three technical papers were presented by our team, covering well integrity, advanced stimulation techniques, and cementing technologies for challenging environments.

SPRINT's participation at GOTECH 2025 highlights our continued investment in knowledge-sharing, innovation, and regional collaboration across the upstream sector.

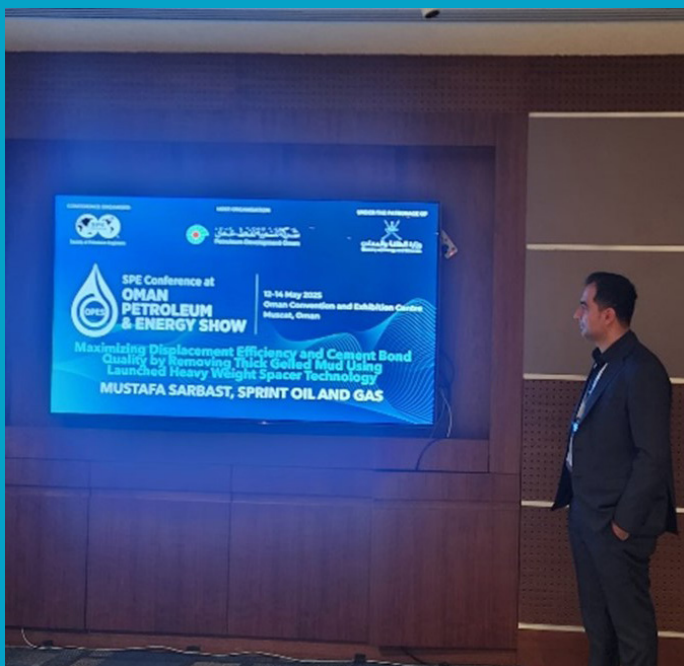

GOTECH
Energy, Technology,
and Innovation

Sprint Participation and Collaboration at OPES 2025, Oman

SPRINT was proud to participate in OPES 2025, reinforcing our commitment to technical excellence and industry collaboration. The event provided an ideal platform to connect with regional stakeholders, explore evolving energy trends, and contribute to knowledge-sharing across the upstream sector.

A key highlight was the presentation of multiple technical papers by our team, including topics on cementing and stimulation solutions for complex wells. These contributions drew strong interest from attendees and underscored SPRINT's focus on innovation and field-proven solutions.

SPRINT NEWS

UAE

Client Visit to UAE Headquarters and Regional Lab

This quarter, SPRINT had the pleasure of hosting several UAE-based clients at our regional office. The visits included detailed walkthroughs of our operational facilities, digital systems, and quality management processes.

These engagements reflect our ongoing commitment to transparency, technical excellence, and building strong, collaborative relationships with our clients in the UAE. We remain dedicated to exceeding expectations and supporting their success across current and future operations

Offshore Acid Stimulation and Injectivity Testing

Continuing Collaborative Success in Rigless Well Services for Bunduq. This quarter, SPRINT successfully executed an acid stimulation and injectivity test as part of Bunduq's ongoing rigless offshore operations. The operation included pre-stimulation injectivity testing, acid bullheading, and a post-job injectivity assessment, demonstrating strong coordination, and safe execution.

SPRINT NEWS

KSA

Empowering Performance

SPRINT's commitment to our valued customer in KSA is further reinforced by delivering cost-effective and efficient rigless campaigns. These include scale inhibition operations to enhance well performance, followed by nitrogen kick-off campaigns to bring wells online. Our quality solutions have positioned us as a trusted partner, paving the way for additional upcoming campaigns.

Technology Day

On 20 May 2025, SPRINT proudly showcased a cutting-edge portfolio of coiled tubing and stimulation technologies to a key customer in KSA - featuring Coiled Tubing Gas Lift, CarboCLEAN, UltraREAXH, MaxOIL, and the Abrasive Stimulation Tool. The positive reception marked a significant step forward in the qualification process, reinforcing our commitment to innovation, performance, and delivering impactful solutions that drive value for our clients.

IRAQ

Expanding Horizons: SPRINT's Recent Milestones in Kurdistan and Beyond

SPRINT proudly secured a coiled tubing and stimulation contract with a major international operator in Kurdistan, successfully executing the first job with excellent client feedback, demonstrating our strong commitment to the region.

As a trusted solutions provider, SPRINT completed a rigless intervention campaign for a valued client in Northern Iraq within a record one-month timeframe, delivering flawless execution and zero NPT, further reinforcing our reputation for operational excellence.

As part of our regional growth strategy, SPRINT is actively exploring collaboration opportunities with strategic partners and engaging with key operators in South Iraq to unlock new service lines and further strengthen our presence in the market.

SPRINT NEWS

PAKISTAN

High-Impact Plug & Abandonment Campaign with Environmental Gains

SPRINT Oil & Gas Services recently completed a major plug and abandonment (P&A) campaign for a leading operator in the Lower and Middle Indus Basin (Pakistan), executing 22 well abandonments in under 20 weeks.

Delivered through a fully integrated service model, including coiled tubing, cementing, slickline, well killing, and logistics. The campaign brought average well completion time to under one week. The scope included over 185,000 feet of coiled tubing deployed, 293 slickline runs, and 63 cement plugs placed to ensure secure well isolation, all contributing to reduced rig time and significant cost efficiencies.

Beyond operational success, the project also achieved notable environmental impact by replacing traditional rig-based methods with a coiled tubing-driven approach. This shift resulted in a reduction of over 200 metric tons of CO₂ emissions - equivalent to preserving 10,000 mature trees or avoiding the use of more than 225,000 pounds of coal.

The campaign exemplifies SPRINT's commitment to combining technical performance with sustainable practices, positioning the company as a leader in efficient, low-footprint energy services.

SPRINT NEWS

Sprint Oil and Gas Services FZC Represents at Koya University Job Fair - Iraq

Under the supervision of Iraq HR from the branch, Sprint for Oil and Gas Services– Iraq proudly participated in the recent Job Fair at Koya University. The event served as a vibrant platform to connect with a large pool of talented and enthusiastic fresh graduates, many of whom expressed a strong desire to kick-start their careers in the energy sector with our company.

The participation was met with overwhelming interest, particularly from students specializing in petroleum engineering and related disciplines. With optimism surrounding the anticipated reopening of the Kurdistan pipeline and the expected restart of oil production in the region, these young professionals conveyed their eagerness to grow within the industry. Many spoke with pride and passion about their dreams to develop into accomplished Kurdish engineers, contributing meaningfully to both local and global energy landscapes.

Our booth attracted the attention of numerous academic leaders, including university heads and deans from across the region. Representatives from Sulaymaniyah University, Salahaddin University, and Soran University visited our team and shared their appreciation for Sprint's involvement in the event. They highlighted the caliber of their graduates and encouraged them to apply directly to our company. Many emphasized that their top petroleum and engineering students had already submitted their CVs in hopes of being considered for future roles once opportunities arise.

The event reaffirmed Sprint's commitment to investing in local talent and supporting the professional development of the next generation of energy leaders. We are honored to be recognized by the academic community and look forward to continuing our collaboration with universities across the Kurdistan Region. As Sprint for Oil and Gas Services FZC continues to grow, we remain dedicated to empowering young professionals and fostering a strong, skilled, and proud Kurdish workforce in the oil and gas sector.

QHSE

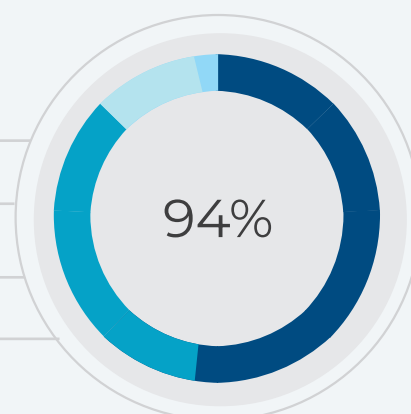

Sprint is driving a cultural shift from **reactive reporting to proactive engagement** — where risks are addressed before they become incidents.

- We're promoting **early identification** over delayed escalation.
- Teams are encouraged to **report concerns, not just outcomes**.
- **Near misses and unsafe conditions** are valued as learning opportunities, not paperwork.
- Supervisors are trained to **listen, act, and close the loop** — not just file reports.
- Every report counts — not for numbers, but for **prevention, trust, and accountability**.

This is how Sprint is embedding a **forward-looking QHSE culture** — where safety is not just responded to, it's led.

Proactive vs Reactive Reporting Ratio

IMPROVEMENT REPORT	56.16%	982
POTENTIAL RISK REPORT	35.3%	617
ACCIDENT REPORT	6.01%	105
NEAR MISS REPORT	2.51%	44

SPRINT KSA - QHSE UPDATE

- Maintained a zero-incident quarter with no LTIs or major cases reported.
- Engage with all teams through interactive sessions on incident reporting and investigation processes.
- Rolled out the Summer Safety Campaign, focusing on heat stress awareness and protective gear distribution.
- Enhanced fire emergency preparedness through 2 fire drills.
- Strengthened contractor oversight via 3 targeted audits.

SPRINT PAKISTAN - QHSE UPDATE

- Sprint Pakistan continued its focus on proactive safety leadership and field engagement throughout the quarter.
- Maintained Zero LTIs and No Major Vehicle Incidents across operations.
- Successfully passed client audits, reinforcing trust in our HSE systems and field performance.
- Launched a targeted Pinch Point Awareness Campaign to reduce hand injury risks during operations.
- Delivered a Defensive Driving (DDC) training session tailored for field staff.
- Conducted 1 Field Audit and 10 In-House Safety Sessions across various teams.
- Celebrated HSE Day with active participation, and recognized team contributions through 4 Safety Awards.

SUPPORT FUNCTION

POWERING PROGRESS:

The Strategic Backbone of SPRINT Oil and Gas – Inside the Supply Chain Department

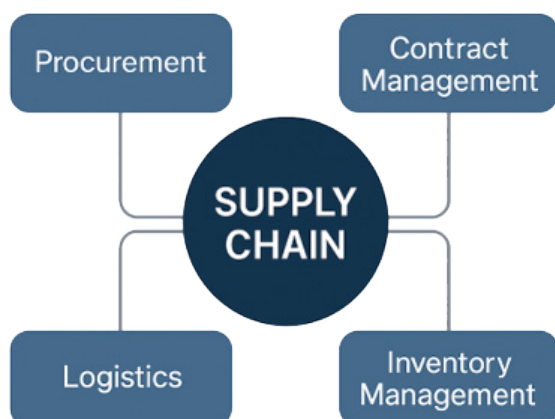

**Regional Supply Chain Manager
Tariq Abbas**

In the high-stakes world of oil and gas, where every delay can mean millions lost and safety is paramount, one department quietly drives the momentum behind every successful operation: the Supply Chain Department.

Far more than just procurement and logistics, the modern oil and gas supply chain is a complex, strategic ecosystem. From the challenging logistics routes to remote well site location, Sprint supply chain team ensure that critical materials, Equipment, and services arrive safely, on time, and within budget—regardless of geopolitical tension, harsh climates, or fluctuating commodity prices.

Sprint Supply Chain Department at glance:

At the heart of this function is procurement excellence. The supply chain teams are responsible for Supplier selection, Contracts & POs.

But procurement is only one piece of the puzzle. The logistics operations are a feat of engineering in themselves. Coordinating the movement of Onshore/offshore delivery, Customs, and freight.

Inventory and Materials Management also play a pivotal role. Warehouse efficiencies, stock levels performance and critical spares inventories. To keep the overall competitive advantage, Contract Management brings in vendor performance, SLAs and Audits.

Sprint's Supply Chain Network: A Centralized and Collaborative Model

At Sprint, the Supply Chain Department is supported by a highly skilled network of teams across Iraq, Pakistan, Saudi Arabia, and the UAE. The UAE regional team acts as the central hub — overseeing global orders and providing direct support to all operational locations.

SUPPORT FUNCTION

POWERING PROGRESS (CONT.)

SPRINT SUPPLY CHAIN KEY INITIATIVES AND ACHIEVEMENTS:

Logistics Consolidation and Optimisation:

Implemented a centralized shipment strategy through Hamriyah Base, combining unified packing and coordinated dispatches to the UAE and onward destinations. This approach reduced freight costs, streamlined documentation and customs processes, minimized the number of shipments, and delivered a significant reduction in the overall carbon footprint.

Warehouse enhancement and Regional Central Warehouse:

Implemented heavy-duty racking systems and improved storage layouts at the UAE warehouse. Established a central warehouse in regional hub-UAE. This enabled rapid dispatch to locations during emergencies, improved turnaround time, and reduced downtime. Transferred dead inventory stocks from Pakistan & Iraq to the UAE central warehouse.

Systems Integration & Process Improvement:

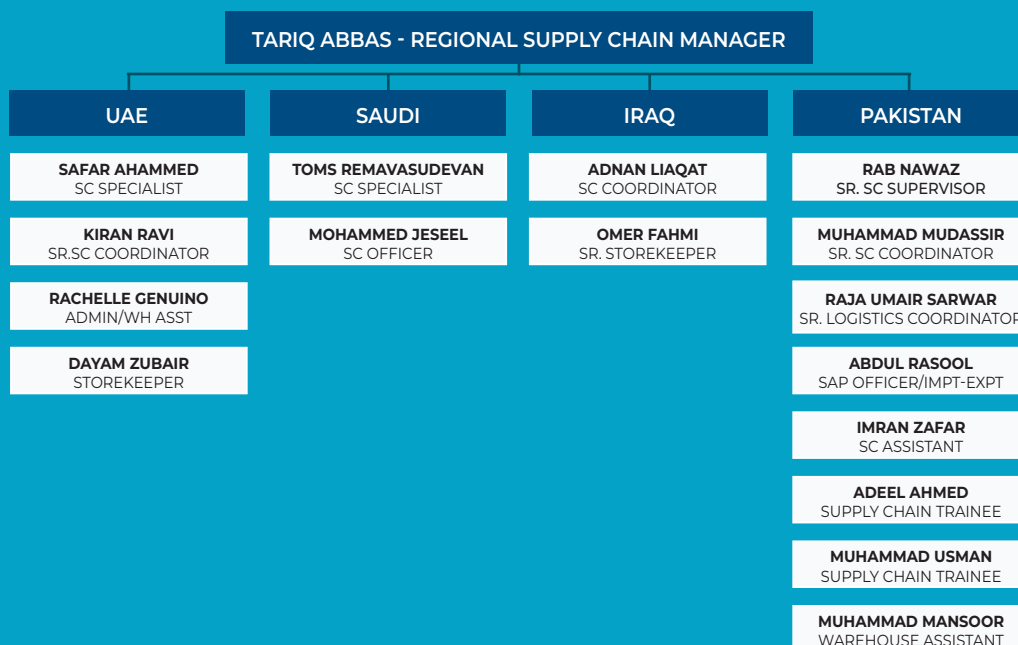

Implemented SAP intercompany solution across all operating entities resulted in automation of procurement process, optimized the process gaps and enhanced the overall transactional efficiency.

Implemented live tracking tools in KSA for improved stock visibility and accuracy.

Internal Audit Accomplishment:

Successfully completed a third-party internal supply chain process audit, ensuring adherence to internal standards and external compliance requirements.

Meet the Sprint Supply Chain

EMPLOYEE SPOTLIGHT

Mustafa Sarbast

Account Manager

How long have you been working in the oil field?

I have been working in the oil and gas field since 2012. In September 2017, I became a part of SPRINT.

How has your career progressed since joining SPRINT?

Since joining SPRINT as a Technical Engineer, I applied and expanded my technical knowledge across various projects with international clients. Through hard work, team support, and the company's trust, I became an Account Manager. This role has helped me grow in client relations, project management, and applying new technologies to drive business and contribute strategically to the company's success.

How does working at SPRINT compare to your experience with other company's?

SPRINT places a strong emphasis on teamwork, quality and innovation, which creates a supportive environment that encourages personal and professional growth. The company's commitment to safety, and continuous improvement. SPRINT ensures that all employees, regardless of their position or nationality, are treated with the same level of respect. This approach fosters an excellent environment for teamwork. As a service company, SPRINT maintains honesty and transparency with clients, consistently earning their trust and positive acknowledgment across projects.

What do you find most rewarding about your role?

The most rewarding aspect of my role is the opportunity to make an effective impact on operations, company development, and client satisfaction. Whether providing solutions to clients, improving efficiency/quality, mentoring team members, or supporting my colleagues, I take great pride in knowing that my work directly contributes to the success of our projects and seeing the real results of our efforts in the field.

Can you share your most memorable experience while working at SPRINT?

One of my memorable experiences at SPRINT was when a client urgently requested a new slurry design to address severe losses and ensure zonal isolation—emphasizing it must succeed on the first attempt, unlike previous jobs. I suggested a new design that had never been used before and client was interested in it. We committed to developing it within a week time. Back at the office, our team immediately began the work on it, and within five days, we finalized and proposed the solution. It was successfully implemented, achieving zonal isolation on the first attempt, and the client was highly satisfied. This success was later documented in a case study and presented as an SPE paper at both GOTECH24 and OPES25 conference. It was a clear reflection of our technical capability, teamwork, and SPRINT's drive for innovation and industry contribution.

What advice would you offer to employees, particularly those working in the field?

Keep learning and don't hesitate to ask questions or share knowledge; teamwork and communication are critical in our industry. Challenges will come, but treat them as opportunities to grow. Stay positive, adapt quickly, and focus on solutions rather than blame. That mindset not only builds your skills but also strengthens the team.

INTERNSHIP FOR YOUNG GENERATION

Aland Omend
Field Engineer Intern,
Iraq - Sprint

I am Aland Omend, a petroleum-engineering graduate from Koya University with a passion for field operations and innovation. My recent internship at Sprint Oil & Gas Services – Iraq provided a comprehensive immersion across operational, and technical functions.

I began in the operational yard under Mr. Rana, learning workflow and safety fundamentals, and received hands-on pump-maintenance instruction from Mr. Adam Hatam. A week-long deployment to an N₂ Kickoff—supervised by Mr. Umer Tariq and supported by Mr. Shekh Aftab—introduced me to rig-up/rig-down procedures, coiled-tubing gear, and on-site HSE practices. Working alongside senior staff, I operated stimulation, nitrogen, chemical, and Dalsco pumps through every project phase.

Briefings from Mr. Abdullah in the Technical Office linked fieldwork to documentation, while mentorship from Mr. Saad broadened my skills in coiled-tubing design, pipe-strength analysis, and preparation of job packages and post-job reports. A rotation with Mr. Zhekaf in the Lab Department covered cement-slurry testing, strength evaluation, and corrosion studies essential to well integrity.

In the internship's final stage, I joined Mr. Mustafa in R&D to evaluate a new retarded-acid system for high-temperature reservoirs—experience that underscored Sprint's commitment to innovation.

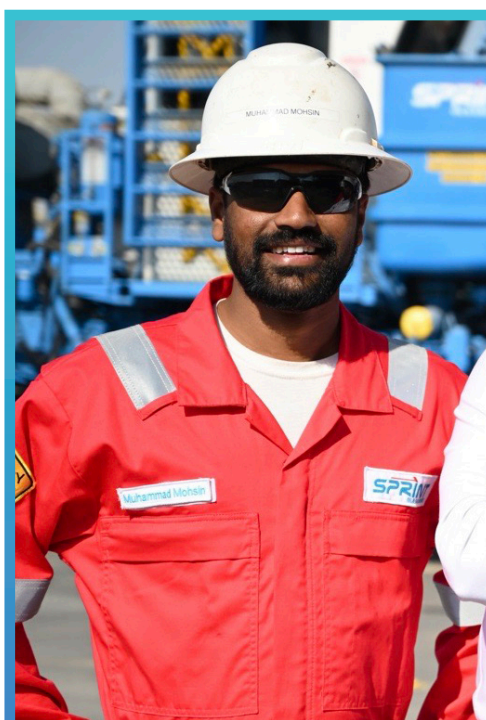

This multifaceted program has strengthened my technical competence, safety awareness, and confidence, preparing me for future challenges in the oil and gas industry. I am grateful to the Sprint team for their mentorship and support.

VOICE FROM THE FIELD

I embarked my professional journey in the oilfield in 2017, starting as a Service Technician Trainee based in Sprint Pakistan. Over the years, my dedication and commitment have propelled me to my current role Service Supervisor based in Saudi Arabia. This progression reflects my unwavering passion for the industry and my continuous pursuit of excellence.

Throughout my career, I've had the privilege of working in diverse and challenging environments, with upright and professional team which has significantly contributed to my professional and company growth. Some of the critical operations I've been involved: Multi-lateral Job (MLT), Milling Operations, Fishing Operations, Emulsified Jobs, EZSV Plug Setting, High-Rate Injectivity

Furthermore, I led the SAWCOD field trial project to establish our company's new venture into the Saudi rigless market, positioning us for long-term business growth in the region. One of the most rewarding aspects of these projects has been achieving zero Nonproductive Time (NPT). This accomplishment underscores the importance of meticulous planning, effective communication, and supportive teamwork.

Muhammad Mohsin
Service Supervisor,
Saudi - Sprint

RECOGNITION & AWARDS

We are honoured to celebrate the outstanding efforts of our team members who have exceeded expectations in their roles. Through their dedication, leadership, and pursuit of excellence, they have made a lasting impact on our success. Join us in celebrating these Sprint Champions from the UAE, Saudi Arabia, Pakistan, and Erbil—true examples of commitment and inspiration across our organization.

EVENTS

EMPLOYEE ENGAGEMENT ACTIVITY

A Celebration of Team Spirit - Pakistan

From the Ping Pong Challenge to the thrilling Tug of War between Operations and Support teams, the day was filled with energy and unity.

Laughter echoed during the “Give a Title” game, as teams exchanged fun and creative titles, while the bold took on spontaneous tasks in the lively “Do the Dare” segment. Our Sprint – Pakistan team brought incredible enthusiasm, adding to the day’s success with their vibrant participation and team spirit.

Ainkawa Cricket League 2025 – Celebrating Sportsmanship and Team Spirit - Iraq

The Ainkawa Cricket League 2025 brought together ten vibrant teams, including our very own Sprint Team, in a thrilling display of skill and camaraderie. Sprint was the first to qualify for the semi-finals, showing exceptional teamwork and resilience throughout the tournament.

In a nail-biting semi-final, our team fought till the last ball, narrowly missing a spot in the finals. Though we didn't take the trophy, our players showed true SPRINT spirit and sportsmanship. Congratulations to the team — we're proud and excited for a stronger comeback next season!

World Day for Safety and Health at Work - Pakistan

Observed under Sprint's Health & Wellness Initiatives, the World Day for Safety and Health at Work emphasized the importance of creating a safe, healthy, and supportive workplace.

The event featured awareness sessions on occupational health, stress management, and preventive care, promoting both physical and mental well-being. Interactive activities and wellness tips encouraged employees to adopt safe work habits and prioritize their health. With active participation and a positive spirit, the event reinforced Sprint's commitment to employee well-being and a proactive safety culture.

EVENTS

EMPLOYEE ENGAGEMENT ACTIVITY

International Yoga Day – Dubai, UAE

To celebrate International Yoga Day (June 21, 2025), our Dubai office held a calming and energizing group yoga session. With today's fast-paced lifestyle, the practice of mindfulness, breathing, and light stretching offered our team a refreshing break for both mind and body.

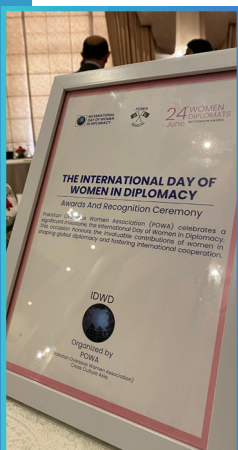

This year's theme, "Yoga for Self and Society," highlights how personal well-being contributes to a healthier, more balanced world. The session reminded us of the importance of pausing, reconnecting, and promoting resilience together.

Midday Break: Sprint Cares This Summer - Sharjah, UAE

From June 15 to September 15, Sprint fully complies with the UAE Midday Break Rule, halting outdoor work between 12:30 PM and 3:00 PM as per MoHRE guidelines.

To further protect our field staff, we provide shaded rest areas and juice mixed with rehydration medicine to help prevent dehydration. At Sprint, safety always comes first.

Women in Diplomacy Day - Pakistan

Sprint Oil & Gas Services was honored to be selected as one of the companies representing Pakistan on the global stage at the Women in Diplomacy Day event, organized by the Pakistan Overseas Women Cultural Organization on June 24, 2025.

The event brought together leaders, ambassadors, and CEOs from around the world to celebrate women's contributions to diplomacy and cross-cultural collaboration. Delegates from countries including Morocco, Malaysia, Italy, Egypt, and Syria shared insights on cultural values and the evolving leadership roles of women. Representing our company, Farnal Fajar (HR Trainee) presented our commitment to inclusivity, international engagement, and the empowerment of women in leadership.

With the dedicated efforts the company, Sprint was recognized and received the Women in Diplomacy Day Award. The event highlighted the importance of global cooperation in advancing women's roles in diplomacy and professional sectors.

BEST SELLER BOOKS TO READ

"Make Time" by Jake Knapp and John Zeratsky is a practical guide that helps us to focus on what truly matters each day. Instead of chasing endless tasks and getting lost in distractions, the book introduces a simple four-step method: choose one daily priority (Highlight), stay focused (Laser), care for your energy (Energize), and improve daily (Reflect). It's a motivating reminder that productivity isn't about doing more—it's about doing what matters most. Perfect for anyone feeling overwhelmed and wanting more control, clarity, and purpose in their work and life.

The book encourages small, daily changes that lead to big results. It helps break the cycle of constant busyness and reminds readers that time is a choice. Most importantly, it empowers employees to create space for meaningful work and a healthier work-life balance.
